## ~~CODING) Anesthesia Technician Certification Study Guide~~

Technologists work under an anesthesiologist or a certified registered nurse anesthesiologist, also called a CRNA, in the operating room to help administer anesthesia. According to WebMD, anesthesia is a way for the anesthesiologist to control pain for the patient during a procedure or surgery by using medicine. Anesthesia can help control the patient's breathing, circulation, blood pressure, and heart rate.
