This new edition of Understanding Contemporary Africa has been thoroughly revised to reflect the many significant events and trends of the past six years—seismic political changes, the impact of the new information technology, the strong presence of China and other foreign powers, and much more. The authors provide current analyses not only of history, politics, and economics, but also geography, environmental concerns, population shifts, and social and cultural issues. Each topic is covered in an accessible style, but with reference to the latest scholarship. Maps, photographs, and a table of basic political data enhance the text, which has made its place as the best available introduction to this diverse and complex continent.

This second edition expands upon the solid, practical foundation established in the first edition of the text. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Gross, embarrassing, and just plain silly questions about boogers, bugs, smelly socks, itchy scabs, and more! Adapted from the hugely popular board game, this interactive and completely engaging book serves up hundreds of bizarre, embarrassing, sometimes ethical and sometimes stomach-churning dilemmas that kids will love to pose to their friends and siblings, whether in the backseat, on a sleepover, at a party, on a rainy day, or during a lull in the lunchroom (if you dare). Ponder the icky: Would you rather eat 10 pounds of cheese -OR- a bucket of peanut butter—with nothing to drink? The exponentially icky: Would you rather drink liquid found leaking from a garbage can -OR- chew on a hairy clump found between the cushions of an old couch? The fantastic: Would you rather be able to talk with all animals -OR- be able to understand all languages? The priority-testing: As a soccer player, would you rather mess up and score a goal for the other team but still have your team win -OR- play your best game ever even though your team loses? And the hair-raising: Would you rather swim across a river that is filled with crocodiles -OR- spend the night on an island where man-eating tigers live? Fascinating sidebars throughout are filled with interesting ancillary information—the nature of drool, left-handedness vs. right-handedness, what's dangerously filthy and what's just gross, why we blush when we're embarrassed—so kids can learn something as they laugh!

Stevens takes readers on a harrowing descent into the mind of a mass murderer in this eerily realistic serial-killer novel. At the center of this gripping epic novel of mass murder, pursuit, and psychological terror is Thomas Bishop, a psychotic young killer who believes he is the son of Caryl Chessman, who was executed for rape in California amid intense controversy. Subjected to unmerciful physical and mental torture from an early age, Bishop kills his mother at the age of ten and is placed in an institution for the criminally insane. He grows to manhood knowing the outside world only through a television screen. At twenty-five, he succeeds in a brilliant escape and change of identity and begins to move across the country, murdering women in particularly gruesome ways. Pursued by reporters, police, and the mob, Bishop manages to elude them all, and the search for him becomes the greatest manhunt in US history. The chilling denouement will hold readers spellbound until the shattering, unforgettable conclusion.
