I'm having this exact same problem, my inspiron 11 2-in-1 3000 series was working fine yesterday. This morning I press the power button and it won't turn on. When it feels like it's going to start, the power light comes on, I hear the fan, then it immediately stops. Doesn't get past a black screen.

numerical methods for complex problem analysis, due to the highly mathematical nature of the field.

Analytical methods alone are unable to solve many complex problems engineering students and professionals confront. Introduction to MATLAB® Programming for Engineers and Scientists examines the basic elements of code writing, and describes MATLAB® methods for solving common engineering problems and applications across the range of engineering disciplines. The text uses a class-tested learning approach and accessible two-color page design to guide students from basic programming to the skills needed for future coursework and engineering practice.
