Containerization
...

26 June 2013 by
Tejvan Pettinger
Containerisation
is a system of
standardised
transport, that
uses a common
size of steel
container to
transport goods.
These containers

Where To Download

can easily be
transferred
between

different modes
of transport -
container ships
to lorries and
trains. This
makes the
transport and
trade of goods
cheaper and more
efficient.
