Economy for the Common Good is a social movement advocating for an alternative economic model. It calls for working towards the common good and cooperation as value above profit-orientation and competition which leads to greed and uncontrolled growth. Christian Felber coined the term in his book Die Gemeinwohl-Ökonomie - Das Wirtschaftsmodell der Zukunft, published in 2010. According to Felber, it makes much more sense for companies to create a so-called "common good balance sheet" than a ...
