Gender relations are power relations. Often what it means to be a 'woman' is to be powerless (quiet, obedient, accommodating). A 'real man', by contrast, is powerful (outspoken, in control, able to impose his will), particularly in relation to women. These gender roles tend to perpetuate the power inequalities that they are based on.

Gender and power: six links and one big opportunity

'Gender' is one of the most persistent causes, consequences and manifestations of power relations. Understanding gender can therefore significantly enhance our understanding of power and vice versa. Yet donors have largely neglected 'gender' in their efforts to understand power relations in partner countries.

Gender and Power and Privilege. Issues of gender and privilege have been a common theme in society for many years. The women's liberation movement in the 1960's and 1970's brought into focus some of the privileges that men enjoyed based on gender and how their use of power affected the lives of women. If we look closely at the social status of women and men, we can see that men continue to have privilege over women in many aspects of life.

The Gender of Power presents a critique of feminist theories of power as simply top-down models of the oppression of women. The authors argue that this notion presents women as passive victims and ignores the diversity and complexity of women's experiences. The ideas on power of Bourdieu, Giddens, Lukes and Foucault are also evaluated in terms of their usefulness in explaining relations between men and women, which can often be covert, consensual and intimate.
