Book 9 in the 299 Days Series

In some ways, post-Collapse life at Pierce Point resembles the every day normalcy that Grant and others still hoped would return. The community is organized and humming along smoothly, the young guys on the Team are partnering off with local "Team Chicks," and Grant's daughter has found a boyfriend. For most, the new reality has been accepted and a calm, self-sustaining groove is setting in. For others, though, life is far from normal.

Special Forces Ted returns with an offer that cannot be refused. In the blink of an eye, Grant Matson has another title he can add to father-of-the-year and prepper-in-chief: Lieutenant Grant Matson, Commander of the 17th Irregulars. Grant and the Team are whisked away to Marion Farm, where they will train civilians and be trained to become a special squad in a Special Forces guerrilla group. The slower, simple life at Pierce Point is about to disappear to make way for a community that is well-trained and battle-ready, posed to fight the Loyalist opposition. This cannot happen fast enough,

though. Gangs are growing steadily and the government is becoming a bigger threat to freedom and the nation. Violence is turning into an everyday occurrence outside of Pierce Point and it is only a matter of time before the peaceful community will need to protect itself from external dangers. Grant feels the weight on his shoulders as he now needs to protect not just his family, but the entire community, and possibly, all of Washington State.

Grant Matson has established himself as the leader of Pierce Point, and he begins teaming

up with others who will help the community become a patriot stronghold, ready to stand up against government Loyalists, the Undecideds and the Oblivious. Using the United States constitution as their guide, they develop a sense of order and begin planning for a future that shows no sign of improving.

were smart enough to spend the summer preparing for the changing season and the expanding effects of the Collapse; others were not so smart, and their desperation and fear grows stronger by the day. Grant Matson reflects with pride on how he has provided for his family while guiding Pierce Point into a community that functions well on its own. Celebrating this accomplishment, Grant and others join to offer the community a Thanksgiving dinner, which is met with gratitude and exhilaration. This mood is short-lived, however, as circumstance quickly begin to unravel, beginning with the

disappearance of a beloved community member, followed shortly by a self-defensive killing by another. The situation is just as bleak, or worse, in other parts of Washington State and the country, as innocent people are imprisoned and murdered, women and children become commodities, and what is left of the government looks even less like the once-beloved United States of America. As the threat of a civil war becomes imminent, Grant, the Team, and the 17th Irregulars at Marion Farm bond over their duty to protect the country and are soon a fully-formed combat-ready unity, excited to go into combat

but uncertain of what will happen to them. Grant dreads what he knows is coming, but he understands that he has been called to sacrifice - potentially his life and probably his marriage - to stop the Loyalists from hurting more people.

When the Patriots finally launch their strike against the Loyalists, Grant Matson's leadership, bravery, and training are put to the ultimate test. The 17th Irregulars are teamed up with regular military units and they must put their differences aside in order to successfully overthrow the Limas.

While the battle rages on, the Loyalists outside of Olympia start to pay the price for their allegiances to the wrong side of the Collapse, while well-intentioned others welcome the beginning of New Washington that recognizes fairness and hard work. The battle winds down and a new day begins as the Team recognizes that victory does not come without loss. Grant, now a celebrated war hero, is not without his own personal hardships, and fears facing a new life without his family.

For many people at Pierce Point and the rest of Washington State, the upcoming New Year is

a time for hope, and belief that life is going to improve and the Collapse will end. For Grant Matson and the 17th Irregulars, the New Year means only one thing - war. The time has come, and they have received their orders from HQ. Grant must come clean with Lisa and tell her the truth about his work as he plans to abandon his family once again. While the Loyalists drunkenly and selfishly celebrate New Year's Eve, the Patriots mount a surprise attack on Frederickson, making way for the 17th Irregulars to move toward Olympia. As the battle moves on, the men quickly realize the importance of everything they have been

training for when they find themselves ambushed. Doing everything he can to suppress his own fear and lead the 17th Irregulars, Grant motivates them to persevere as they fight for liberty and restoring the country to the greatness it once was.

Grant Matson is on the run from a murder rap and from the approaching collapse of society.

Glen Tate has led an amazing life - and one that took a surprising turn. He grew up poor in the rural logging town of Forks, Washington. He worked hard to become a successful professional with a job in the political arena. Thinking he'd finally made it and everything was great, he was stunned

to see how corrupt government is. From his observations at his job, he realized that America is collapsing and bad things are coming. Very soon. He began to prepare for him and his family to make it through the civil unrest of the coming collapse. That meant he had to return to his rural roots - quite a shock to his family and friends. Even more amazing was that he wrote down what he foresees happening during the collapse and it became a ten-book novel series published by Prepper Press.
