The forces of globalization will not totally transform Asia's regional security order, but they will produce a new set of challenges and opportunities for policymakers in the next century. Globalization and Regional Security. The impact of globalization on Asia's security environment is complex. In addition to affecting political and economic conditions within states, globalization may be transforming relations among states.

*Globalisation and Work in Asia - 1st Edition*

This is a diverse region, but its different parts have complementary characteristics, and powerful networks are developing within Asia. Patterns of globalization are shifting, and these shifts are occurring faster in Asia than elsewhere, suggesting that more than any other region, Asia could shape the way globalization unfolds in the years to come.

*The future of Asia: Asian flows and networks are defining* ...

The book challenges the popular view that with globalization either the role of the state becomes redundant or that states are unable to purposefully intervene in the economy. The book argues that since most states pursue national interests, which largely include economic development, they work with national business and often intervene on their behalf to create internationally competitive ...

*Globalization and Economic Nationalism in Asia - Oxford ...*

Clearly, globalization has had a major impact on Asia's role in the world economy. As recently as a decade ago, the developing countries of Asia accounted for only one-sixth of world output.
