recent years has been the engine of global economic growth , this volume surveys trends and prospects in technical and vocational education and training (TVET) with particular reference to achieving inclusive growth and the greening of economies. Underlying the increasing pressure for new models of TVET provision is the rapid pace of technological change, demand for a work force which is highly responsive to evolving needs and a transforming market place that calls for higher order skills and lifelong learning. The book proposes a re-engineered, modernized TVET system that fosters an innovative

approach which enhances the employability of workers as well as the sustainability of their livelihoods. The book includes contributions from leading policy makers, researchers, and practitioners, including those in the private sector in analyzing and forecasting the most urgent priorities in skills development. The book argues for creative approaches to TVET design and delivery particularly with a view to improve job prospects , and meeting the goals of inclusion, sustainable development and social cohesion. Addressing issues such as the chronic mismatches between skills acquired

and actual skills required in the work place, the volume proposes diversified approaches towards workforce development and partnerships with the private sector to improve the quality and relevance of skills development . The new imperatives created by 'greening' economies and responses required in skills development and training are addressed. Developing TVET is a high priority for governments in the Asia Pacific region as they seek to achieve long-term sustainable growth since the .continued success of their economic destinies depend on it. The volume also includes an emerging framework for

the past three decades provides an important case study for understanding how government attitudes to the labour market contribute to an emerging economy's growth and development. This study contains important insights on the policy challenges faced by one of the world's most populous, labour abundant economies in securing employment in a context of structural change. The book considers India's approach to employment policy from a national and global perspective and whether policy settings promote employment intensive growth. Chapters in the first half of the volume evaluate India's approach to employment

policy within the national and international context. This includes the ILO Decent Work program, the national agenda for inclusive growth, and national regulatory frameworks for labour and education. Chapters in the second half of the volume focus on how employment policy works in practice and its impact on manufacturing workers, the self-employed, women, and rural workers. These chapters draw attention to the contradictions within the current policy regime and the need for new approaches. Employment Policy in Emerging Economies will interest scholars, policy makers and students of the Indian
