A woman's search to uncover the truth about her mother ignites danger  
and passion in this novel from #1 New York Times bestselling author  
Julie Garwood. Daddy's girl Cordelia Kane is devastated when her  
father has a serious heart attack, and the emotion is only intensified  
by the confusion she feels when he reveals the shocking truth about  
her late mother. Desperate to find answers to her questions about the  
woman who gave birth to her, Cordelia hitches a ride to Sydney,  
Australia, on the company jet of hotel magnate Aiden Madison, her best  
friend's brother. Aiden wants to help Cordelia, but threats from her  
wealthy, high-powered family quickly become dangerous. As sparks fly  
between them, multiple attempts are made on Cordelia's life—and Aiden  
realizes he must put a stop to the madness before he loses the thing  
he values most.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

American Literature and American Identity addresses the crucial issue of identity formation, especially national identity, in influential works of American literature. Patrick Colm Hogan uses techniques of cognitive and affective science to examine the complex and often highly ambivalent treatment of American identity in works by Melville, Cooper, Sedgwick, Apess, Stowe, Jacobs, Douglass, Hawthorne, Poe, and Judith Sargeant Murray. Hogan focuses on the issue of how authors imagined American identity--specifically, as universal, democratic egalitarianism--in the face of the nation's clear and often brutal inequalities of race and sex. In the course of this study, Hogan advances our understanding of nationalism in general, American identity in particular, and the widely read literary works he examines.
