Numerology is a scientific-based system of converting information about a person to a number that corresponds to information on various charts. And this book, Numerology: The Ultimate Guide to Numerology for Beginners, Including the Divine Triangle, the Relationships and Dating Compatibility. Ideal to Discover the Connection to Astrology, is the only book you will ever need to know exactly how numerology works and how it can work for you. And you will even learn how you can use numbers to know what kind of life you lived in a past life. The worst part about not trying to make numerology work in your life is the knowledge of what you will be missing. You might feel that you could live forever not knowing these things, but think about how much more improved life would be if you had a way to interpret the meaning of the events in your life and how to handle them? So take this book, and use the instructions inside to calculate the numbers that are important to your life, and learn what they mean to you. You will not be sorry that you did, and, if done correctly, you will be leading the best life that you can possibly have.

Never before have the master numbers - 11, 22, 33, through 99 - been examined in such depth and detail. Faith Javane, one of the most respected numerologists in the country, reveals the significance of these power indicators, both in our personal lives and in a historical and cosmic sense. She looks at the progression of the master numbers as the journey the soul takes as it seeks to master the different levels of understanding. Javane also analyzes the two single-

digit numbers that, when added together, equal a master number, for example $2+9=11$. These numbers within numbers "test" how well we have learned the lessons of the master numbers and whether we are ready to move on to the next level.

This is unlike any other book on numerology, because it reveals the science behind this ancient mystical art and explains why it works. It is also the first book to present a thorough explanation of the numbers and letters, starting with their origins--the how and why of their design--and exploring their nature in names and language. In addition, it introduces the Inner Guidance Number, a powerful tool for accessing our inner knowing. Note: This is a repackaging of *The Secret Science of Numerology: The Hidden Meaning of Numbers and Letters* by Shirley Lawrence (New Page, 2001; ISBN: 9781564145291), which has until recently only been available via Lightning Source.
