According to Publishers Weekly, the result is "a major biography of a major American military figure." "This massive work is biography at its very best. Literate and meaty, incisive and balanced, detailed without being pedantic. Mr. D'Este's Patton takes its rightful place as the definitive biography of this American warrior." --Calvin L. Christman, Dallas Morning News "D'Este tells this story well, and gives us a new understanding of this great and troubled man."-The Wall Street Journal "An instant classic." --Douglas Brinkley, director, Eisenhower Center

Transcripts from General Patten's war diary covering his campaigns in Sicily, France, and Germany

Known for his rousing speeches and military triumphs, General George S. Patton, Jr. is one of the most famous military figures in U.S. history. Yet, he is better known for his profanity than his prayers. Until now. In his new book George S. Patton: Blood, Guts, and Prayer, author Michael Keane takes readers on a journey through Patton ' s career in three parts: his military prowess, his inspirational bravery, and his faith. Using Patton ' s own diaries, speeches, and personal papers, Keane examines the general ' s actions and personality to shed light on his unique and paradoxical persona. From his miraculous near-death experience to his famous prayer for fair weather, Patton: Blood, Guts, and Prayer recounts the seminal events that contributed to Patton ' s personal and religious beliefs. Comprehensive and inspiring, Patton: Blood, Guts, and Prayer is an extraordinary look at the public and private life of one of World War II's most storied generals.

Dwight Eisenhower called General George S. Patton " mentally unbalanced " and " just like a time bomb. " and indeed, the egotistical, mercurial, aggressive Patton is perhaps as well known for his daring battlefield exploits as for his questionable behavior and eccentric beliefs. In a brief but probing assessment of Patton ' s life based on strong research in primary sources and knowledge of psychology, Jim Sudmeier considers the mind of Patton: what made this military genius tick? To what extent was Patton ' s boldness and brilliance as a general, his willingness to welcome risk and danger, connected to his unstable personality? Sudmeier presents a myth-shattering reconsideration of one of military history ' s most famous commanders.

George S. Patton embodied contradiction: a cavalryman steeped in romantic military tradition, he nevertheless pulled a reluctant American military into the most advanced realms of highly mobile armored warfare. An autocratic snob, Patton created unparalleled rapport and loyalty with the lowliest private in his command; an outspoken racist, he led the only racially integrated U.S. military unit in World War II; an exuberantly profane man, he prayed daily and believed God had destined him for military greatness; a profoundly insecure individual, he made his Third Army the most self-confident and consistently victorious fighting force in the European theater. From Patton's boyhood battling dyslexia and becoming an avid reader, to his leadership strategies that modernized the U.S. army, Alan Axelrod delivers a fascinating account of Patton's life and legacy.

Patton: A Genius for War - Amazon.com

Patton: A Genius for War is a full-fledged portrait of an extraordinary American that reveals the complex and contradictory personality that lay behind the swashbuckling and brash facade.

"An excellent book . . . D'Este's masterly account comes into its own." —The Washington Post Book World Born into hardscrabble poverty in rural Kansas, the son of stern pacifists, Dwight David Eisenhower graduated from high school more likely to teach history than to make it. Casting new light on this profound evolution, Eisenhower chronicles the unlikely, dramatic rise of the supreme Allied commander. With full access to private papers and letters, Carlo D'Este has exposed for the first time the untold myths that have surrounded Eisenhower and his family for over fifty years, and identified the complex and contradictory character behind Ike's famous grin and air of calm self-assurance. Unlike other biographies of the general, Eisenhower captures the true Ike, from his youth to the pinnacle of his career and afterward.

In Patton, Montgomery, Rommel, one of Britain's most accomplished military scholars presents an unprecedented study of the land war in the North African and European theaters, as well as their chief commanders—three men who also happened to be the most compelling dramatis personae of World War II. Beyond spellbinding depictions of pivotal confrontations at El Alamein, Monte Cassino, and the Ardennes forest, author-scholar Terry Brighton illuminates the personal motivations and historical events that propelled the three men's careers: how Patton's, Montgomery's, and Rommel's Great War experiences helped to mold their style of command—and how, exactly, they managed to apply their arguably megalomaniacal personalities (and hitherto unrecognized political acumen and tact) to advance their careers and strategic vision. Opening new avenues of inquiry into the lives and careers of three men widely profiled by scholars and popular historians alike, Brighton definitively answers numerous lingering and controversial questions: Was Patton really as vainglorious in real life as he was portrayed to be on the silver screen?—and how did his tireless advocacy of "mechanized cavalry" forever change the face of war? Was Monty's dogged publicity-seeking driven by his own need for recognition or by his desire to claim for Britain a leadership role in postwar global order?—and how did this prickly "commoner" manage to earn affection and esteem from enlisted men and nobility alike? How might the war have ended if Rommel had had more tanks?—and what fundamental philosophical difference between him and Hitler made such an outcome virtually impossible? Abetted by new primary source material and animated by Terry Brighton's incomparable storytelling gifts, Patton, Montgomery, Rommel offers critical new interpretations of the Second World War as it was experienced by its three most flamboyant, controversial, and influential commanders—and augments our understanding of each of their perceptions of war and leadership.

General George S. Patton Jr, an inspirational leader and outstanding tactician, has intrigued and confounded his biographers. Utilising untapped archival materials in both the USA and UK, government documents, family papers, and oral histories, Hirshson creates the most balanced portrait of Patton ever written. It reveals Patton as a complex soldier capable of brilliant military manoeuvres but also of inspiring his troops with fiery speeches that resulted in horrendous acts, such as the massacres of Italian civilians. It explains Patton's belief in a soldier's Valhalla, connects the family's wealth to one of America's bitterest labour strikes, and disputes the usual interpretation of Patton's relief from command of the Third Army. In investigating this complex man, Hirshson has uncovered surprising material about a series of civilian massacres in Sicily, about the two slapping incidents, about attempts to exploit Patton's diary after his death, and about Patton's relations with top Allied generals. Patton emerges as a soldier of great imagination and courage, and his military campaigns make for edge – of – the – seat reading. All the drama of Patton's life comes alive in this meticulously documented volume.
