Radical Ecstasy is a great intro for building a spiritual side to your sexual practices. To be honest, it bothers me how there's so much out there in society about basic lust and pleasure without the added component of seeing it all as a way to transcend the physical and turn it into something far greater than the sum of its parts by adding the spiritual aspect to it. Radical Ecstasy is the sixth book Dossie Easton and Janet Hardy have written together, though the first one I have read by them. Early in it becomes clear that each have something different to offer, and without the other the book wouldn't be nearly as strong.

For millennia, seekers have used physical and emotional extremes to achieve transcendence and exaltation. Today, many BDSM and leather practitioners are discovering the potential of SM practice to reach personal, interpersonal and spiritual goals. In Radical Ecstasy, bestselling BDSM/sexuality authors Easton and Hardy document their own journeys into the transcendent realm of kink. With their trademark frankness and humor, they share their own stories and philosophies. They also share techniques that have worked for them - techniques which combine tantric breathing, visualization and movement with a combined half-century of BDSM experience - to create states of transcendence during solo and partnered sexual and BDSM practice. As outrageously revolutionary as any sex book published in the last decade, Radical Ecstasy sets the stage for the new millennium in BDSM and sacred-sex practices - a "must" for any kink, tantra, pagan or sacred-sex practitioner. "Amazingly mindful exploration of that which cannot be easily put into words... the ecstatic experience from sex to sadomasochism, from trance to intuition to archetypes and spiritual awakening. Totally real and personal. Not a 'how to' but a nurturing 'can do' book." - Fakir Musafar, father of the modern primitive movement. "Progressive, deliciously honest, and HOT HOT HOT! Dossie and Janet ask difficult questions about the nature of sex, intimacy and ecstasy, then they actually manage to answer the questions, plus turn us on when they do. These two erotically gifted women have a way with words - and sex. They raise the bar on erotic writing and sex education to new heights. I'm in awe." - Annie Sprinkle, Ph.D., prostitute/porn star turned sex guru/sexologist "Fascinating, heartfelt, honest, real stories of the heart/spirit/energy connection experienced in the passionate rituals of intimate consensual power play. These two courageous women write brilliantly of how erotic energies connect us with the big love we all seek from the source." - Cleo Dubois, educator, ritualist, video producer/star

What would it be like to function as the Real You and not as the mask you have adopted from the world at large?

Use of the drug ecstasy, once confined to the teen rave scene, and college campuses, is exploding across America. Ecstasy: The Complete Guide takes the first unbiased look at the risks and the benefits of this unique drug, including the science of how it works; its promise as a treatment for depression, post-traumatic stress disorders, and other mental illnesses; and how to minimize the risks of use.

Within the past twenty years, contemporary Pagan leaders, progressive Christian and Goddess theologians, advocates for queer and BDSM communities, and therapeutic bodyworkers have all begun to speak forcefully about the sacredness of the body and of touch. Many assert that the erotic is a divinely transformative force, both for personal development and for social change. Although "the erotic" includes sexuality, it is not limited to it; access to connected nonsexual touch is as profound a need as that for sexual freedom and health. In this book, Christine Hoff Kraemer brings together an academic background in religious studies and theology with lived experience as a professional bodyworker and contemporary Pagan practitioner. Arguing that the erotic is a powerful moral force that can ground a system of ethics, Kraemer integrates approaches from queer theology, therapeutic bodywork, and sexual minority advocacy into a contemporary Pagan religious framework. Addressing itself to liberal religious people of many faiths, Eros and Touch from a Pagan Perspective approaches the right to pleasure as a social justice issue and proposes a sacramental practice of mindful, consensual touch.

Counselling Ideologies draws our attention to the dilemmas inherent within the therapeutic ideologies commonly subscribed

to by psychotherapists and counsellors working with those who challenge heteronormative models and approaches. Identifying the modernist, heteronormative understandings of the world implicit in the more popular models, this book employs queer theory to challenge these ideologies, drawing on disciplines both within and outside of counselling and psychology, as well as sociology, cultural studies and various ethnographic accounts. It highlights the dilemmas faced by those who may wish to practise as 'queer therapists', addressing not only therapeutic dilemmas, but also issues such as: identity, race, coming-out experiences, 'internalised homophobia', 'empathy', 'ethical issues', bisexuality and pathologisation. Comprising contributions from both academic experts and practitioners from the UK, USA and Australia, this book represents a new approach to counselling and psychotherapy that will appeal not only to sociologists and those working in the field of mental health, but also to scholars of race and ethnicity, gender, queer studies and queer theory.

Decades on from independence the role of Mau Mau still excites argument and controversy, not least in Kenya itself.

In this lively ethnography, Weiss studies the pansexual BDSM community in the San Francisco Bay Area. Weiss finds that BDSM practice is not as transgressive as the participants imagine, nor is it simply reinforcing of older forms of social domination. Instead she shows how fantasy play depends on pre-existing social hierarchies, even as it also participates in a commodification of desires.

For many of us, feelings of deficiency are right around the corner. It doesn't take much--just hearing of someone else's accomplishments, being criticized, getting into an argument, making a mistake at work--to make us feel that we are not okay. Beginning to understand how our lives have become ensnared in this trance of unworthiness is our first step toward reconnecting with who we really are and what it means to live fully. —from *Radical Acceptance* "Believing that something is wrong with us is a deep and tenacious suffering," says Tara Brach at the start of this illuminating book. This suffering emerges in crippling self-judgments and conflicts in our relationships, in addictions and perfectionism, in loneliness and overwork—all the forces that keep our lives constricted and unfulfilled. *Radical Acceptance* offers a path to freedom, including the day-to-day practical guidance developed over Dr. Brach's twenty years of work with therapy clients and Buddhist students. Writing with great warmth and clarity, Tara Brach brings her teachings alive through personal stories and case histories, fresh interpretations of Buddhist tales, and guided meditations. Step by step, she leads us to trust our innate goodness, showing how we can develop the balance of clear-sightedness and compassion that is the essence of *Radical Acceptance*. *Radical Acceptance* does not mean self-indulgence or passivity. Instead it empowers genuine change: healing fear and shame and helping to build loving, authentic relationships. When we stop being at war with ourselves, we are free to live fully every precious moment of our lives.

This book exhibits the richness and sophistication of Plotinian and Dionysian apophatic theologies by explicating their respective internal "logics." It articulates the unique metaphysical status and explanatory role that the One and God, respectively, play in Plotinus's and Dionysius's reflections, showing the way in which apophasis is generated and sustained by the metaphysical-explanatory lines of thought in which the One (Plotinus) and God (Dionysius) function as the ultimate, unconditioned source of everything else. In the context of explanation, negation serves to convey the incomparable reality of the One or of God as beyond being. However, the metaphysical and explanatory lines of thought are themselves situated within the broader context of the soul's ascent to mystical union with the One or with God. From this broader perspective, the discursive practice of negation constitutes the basis of preparing the soul for mystical union. Preparation for mystical union involves the cognitive and trans-cognitive practice of negation, which enables the soul to progress towards and become united with the One or God. This study is motivated by the desire to more deeply understand apophasis as deployed in different philosophical, theological, and religious contexts, including the work of contemporary thinkers such as Jean-Luc Marion.
