Roman military personal equipment was produced in small numbers to established patterns, and it was used in an established manner. These standard patterns and uses were called the res militaris or disciplina. Its regular practice during the Roman Republic and Roman Empire led to military excellence and victory. The equipment gave the Romans a very distinct advantage over their barbarian enemies, especially so in the case of armour. This does not mean that every Roman soldier had better equipment

Roman military personal equipment - Wikipedia

Roman Military Equipment: From the Punic Wars to the Fall of Rome M.C. Bishop , J.C. Coulston Rome's rise to empire is often said to have owed much to the efficiency and military skill of her armies and their technological superiority over barbarian enemies.
