I've spent years hoping someone would finally hear me. It's easier not to try anymore... Ten years after leaving his small Minnesota hometown in his rearview mirror for what Nolan Grainger was sure would be the last time, life has decided to throw the talented musician a curveball and send him back to the town he lived in but was never really home. At twenty-eight, Nolan has traveled the world as a successful concert violinist with some of the best symphonies in the country. But

success breeds envy, and when Nolan's benefactor and lover decides Nolan has flown high enough, he cruelly clips Nolan's wings. The betrayal and ensuing scandal leaves the violinist's career in shambles and with barely enough money to start fresh somewhere beyond his vindictive ex's powerful reach. But just as he's ready to get his life back on track, Nolan gets the call he's been dreading. After a stroke leaves his father a partial invalid, duty-bound Nolan returns to Pelican Bay and a life he's spent years trying to forget. When he's forced to use the last of his own money to keep from losing the family home, desperation has him turning to the one man he'd hoped never to see again... Even if I could speak, there wouldn't be anyone there to listen...

Pelican Bay's golden boy, Dallas Kent, had the quintessential perfect life. Smart, gorgeous, and popular, the baseball phenom was well on his way to a life filled with fame and fortune. But more importantly, he had a one-way ticket out of Pelican Bay and far away from the family who used love as currency and whose high expectations were the law of the land. But a stormy night, sharp highway curve and one bad decision changed everything, leaving Dallas with nothing. Because the accident that took his parents, his future and his crown as the boy who could do no wrong, also stole his voice. Despised for the horrific wreck that ended the lives of two of Pelican Bay's most respected residents, Dallas has retreated to a secluded

But when the quiet, bookish boy he wasn't allowed to notice in school suddenly reappears ten years later at Dallas's wildlife rehab center in desperate need of a job, Dallas is thrust back into a world he's worked hard to escape. Dallas's silence was supposed to send Nolan scurrying, but what if Nolan ends up being the one person who finally hears him? Will two men who've been fleeing from the past finally come home to Pelican Bay for good or will the silence drive them apart forever?

Since 1980, the number of people in U.S. prisons has increased more than 450%. Despite a crime rate that has been falling steadily for decades, California has led the way in this explosion, with what a state analyst called "the biggest prison building project in the history of the world." *Golden Gulag* provides the first detailed explanation for that buildup by looking at how political and economic forces, ranging from global to local, conjoined to produce the prison boom. In an informed and impassioned account, Ruth Wilson Gilmore examines this issue through statewide, rural, and urban perspectives to explain how the expansion developed from surpluses of finance capital, labor, land, and state

capacity. Detailing crises that hit California ' s economy with particular ferocity, she argues that defeats of radical struggles, weakening of labor, and shifting patterns of capital investment have been key conditions for prison growth. The results—a vast and expensive prison system, a huge number of incarcerated young people of color, and the increase in punitive justice such as the "three strikes" law—pose profound and troubling questions for the future of California, the United States, and the world. Golden Gulag provides a rich context for this complex dilemma, and at the same time challenges many cherished assumptions about who benefits and who suffers from the state ' s commitment to prison expansion.

Wilderness guide Xander Reed has spent fifteen years trying to forget the night he turned to his best friend in his darkest hour, only to find the young man who'd sworn to always have his back was turning his on Xander instead. Two thousand miles and fifteen years of building a new life in the quiet backcountry of the Rocky Mountains should have been enough to put the memory of Bennett Crawford out of his mind forever, but old wounds run deep and when Bennett suddenly reappears in his life as part of a wilderness expedition Xander is guiding, the scars he thought long healed

I had one reason for never going back to the small town I once called home, but I never guessed it would be the same one that made me want to stay...BrooksI grew up in the small town of Eden, Wyoming, but never really felt like I fit in.Until I met the one boy who changed all that.When we were kids, Xavier Price understood horses, but somehow, he got me too. He'd made me feel like I wasn't just the overdressed, too sensitive fifteen-year-old geek who loved math and didn't always say

And while I'm back in Eden to make sure my uncle's horse ranch is operating in the black, the one thing I know I won't have to deal with is the man who'd been on the verge of stealing my heart ten years ago. Because Xavier Price is still in prison for what he did and even if he weren't, he wouldn't be foolish enough to show his face in Eden ever again. Right? Xavier Wrong. That's what returning to Eden after ten years behind bars feels like. But it wasn't like I had a whole lot of choices. And it wasn't like I was going to be handed any decent job offers, let alone my dream one of working with horses. But that's exactly

what happened and now that I'm foreman of Black Hills Ranch, I'm not letting this job go for anything. Not even the spoiled little rich kid I'd thought was different when he'd glommed onto me ten years ago. I have no doubt Brooks Cunningham didn't wait long to move on to bigger and better things the second my jail cell was locked behind me, and that's just fine by me. I'd been wrong about the sweet, emotional boy who'd had a habit of wearing his heart on his sleeve anyway. Except fate has decided to have another go at me by tossing Brooks right back into my sometimes too small world. Gone is the scrawny, stars-in-his-eyes nerd who used to do math problems just for fun. keep moving, everything will be okay. That's what I keep telling myself, anyway... For twenty-one-year-old Isaac, Pelican Bay is only supposed to be a stopping point on the trek from San Francisco to New York. With his little brother, Newt, in tow, Isaac is just looking to make things right by returning something of value to a person he wronged. But "getting lost" in the next big city proves to be a problem when the brutal Minnesota winter claims Isaac's car and strands him and Newt at the animal sanctuary. When the owners of the place offer him a job, a desperate Isaac agrees, despite the presence of a man Isaac instinctively knows could be his downfall... It should be so easy to let him go, but I can't. And not just because I want to protect him...

Nothing about Isaac makes sense to Maddox. Not his piercings or makeup or flashy clothes. And most certainly not the snarky mouth that doesn't match the vulnerability Maddox sees in the younger man's eyes. But one thing does make sense to the hardened former soldier. Isaac is running from something, and Maddox's gut is telling him not to let Isaac and little Newt go until he can ferret out the truth. But having Isaac around means trying to make sense of something else Maddox isn't expecting... his own body's response to the beautiful younger man. Aside from their explosive chemistry, nothing about the straitlaced soldier and the secretive misfit works. But maybe that's exactly why it does...

Everything's going exactly as planned until my dads send Zach to check on me just as I'm dealing with an ex who doesn't understand the meaning of the word no. It's bad enough Zach still thinks of me as a child; now he also thinks I'm incapable of looking out for myself. I need to get him off my back before he finds out I'm not heading to Wyoming for summer break like everyone thinks. I'm going to Glacier National Park to learn how to rappel from helicopters... On the way there, all I have to do is peek in on little Lucky Reed and make sure he's okay. He's not. Someone has it out for him, and I'll be damned if I'm going to let him get hurt on my watch. My plan is to keep him safe until he heads south for his summer job playing trail guide to tourists. Once he's gone, I'll be free to head to Glacier where my biggest challenge will be keeping a handful of alpine search and rescue students safe as they learn how to dangle from helicopters high above the Rocky Mountains.
