Two leadership consultants identify three keys to being a more effective leader: knowing your strengths and investing in others' strengths, getting people with the right strengths on your team, and understanding and meeting the four basic needs of those who look to you for leadership.

"The Kawa (Japanese for river) model uses a familiar metaphor of nature as an effective medium to translate subjective views of self, life, well-being and the meanings of

The familiarity of the metaphor - to both therapists and clients alike - and the ease with which its framework can be comprehended and applied makes this model an effective and highly relevant tool for an increasingly diverse global clientele." "The Kawa Model will challenge occupational therapy students, practitioners, educators and researchers to comprehend their theory in a critical light and consider how to advance their practice and profession toward a more inclusive and meaningful direction."--BOOK JACKET.
