The internationally acclaimed dancer and choreographer chronicles his life, the evolution of his art, and his professional and personal collaboration with Arnie Zane, who died of AIDS in 1988

Poems deal with writing, death and immortality, literature, city life, illness, war, and the past.

Something strange is happening in the parking lot of Time Zone High: The established cliques aren't in their usual gathering places. Instead, everyone has joined in one large, frantically interacting mass. Why? Maybe it's because the world may end tomorrow. Allegra Hanover is Time Zone High's over-achieving valedictorian, so motorcycle-driving surfer bum Andros Bliss seems like the last person she would date. But when an asteroid is rumored to be hurtling toward Earth, the normal high school rules start to fade. Students and teachers are ditching class, and the lines between high school cliques are breaking down. Is the end of the world enough to make Allegra finally go for her secret crush?

him than being a good father. But Bonnie's traumatic birth puts an unbearable strain on his marriage with Shauna and the couple eventually separate. Despite this, London is the place to be: New Labour is in power and the city is buzzing with optimism. Jay is slowly putting his life back together, snagging a job on a TV documentary about the Millennium Dome and, crucially, spending time with his beloved three-year-old daughter, Bonnie. Indeed, things might have even begun to look up. Until, that is, the arrival of The Clappers. Six foot tall, all muscle and plenty of heart, she insists on making the world right for Jay. But, inevitably, she makes it wrong...

Fourteen dark tales about the tragic qualities of exile feature protagonists who are struggling with marginal lives and private, often ill-fated, quests, in a collection set in the Chilean exile diaspora of Latin America and Europe. Reprint.

From the savanna to the city to outer space, celebrated Nordic children's book illustrator Linda Bondestam offers a charming peek at the many ways we settle in for sleep, with gorgeous, dreamlike illustrations full of offbeat humor. faraway planet. Little monkey needs his mama to play at least seventy-three songs on the ukulele to fall asleep. A meerkat family enjoys some stretches together as the sun goes down, while baby sloth is a bedtime expert--she's already snoozing soundly in the trees. Die-cut pages invite little ones to help new animal friends get cozy under the covers. With unconventional illustrations full of wit and tenderness, Good Night Earth is a sweetly silly exploration of how all kinds of creatures find peaceful and playful ways to end the day.

storytelling *On Earth We're Briefly Gorgeous* is a letter from a son to a mother who cannot read. Written when the speaker, Little Dog, is in his late twenties, the letter unearths a family's history that began before he was born -- a history whose epicenter is rooted in Vietnam -- and serves as a doorway into parts of his life his mother has never known, all of it leading to an unforgettable revelation. At once a witness to the fraught yet undeniable love between a single mother and her son, it is also a brutally honest exploration of race, class, and masculinity. Asking questions central to our American moment, immersed as we are in addiction, violence, and trauma, but undergirded by compassion and tenderness, *On Earth We're Briefly Gorgeous* is as much about the power of telling one's own story as it is about the obliterating silence of not being heard. With stunning urgency and grace, Ocean Vuong writes of people caught between disparate worlds, and asks how we heal and rescue one another without forsaking who we are. The question of how to survive, and how to make of it a kind of joy, powers the most important debut novel of many years. Fair, The Wall Street Journal Magazine and more!

This critical study of the literary magazines, underground newspapers, and small press publications that had an impact on Charles Bukowski's early career, draws on archives, privately held unpublished Bukowski work, and interviews to shed new light on the ways in which Bukowski became an icon in the alternative literary scene in the 1960s.

A town under quarantine during the 1918 flu epidemic must reckon with forces beyond their control in a powerful, sweeping novel of morality in a time of upheaval "An American variation on Albert Camus' The Plague."—Chicago Tribune NAMED ONE OF THE BEST BOOKS OF THE YEAR BY USA TODAY AND CHICAGO TRIBUNE • WINNER OF THE JAMES FENIMORE COOPER PRIZE FOR HISTORICAL FICTION Deep in the mist-shrouded forests of the Pacific Northwest is a small mill town called Commonwealth, conceived as a haven for workers weary of exploitation. For Philip Worthy, the adopted son of the town's founder, it is a haven in another sense—as the first place in his life he's had a loving family to call his own. And yet, the ideals that define this outpost are being threatened

from all sides. A world war is raging, and with the fear of spies rampant, the loyalty of all Americans is coming under scrutiny. Meanwhile, another shadow has fallen across the region in the form of a deadly virus striking down vast swaths of surrounding communities. When Commonwealth votes to quarantine itself against contagion, guards are posted at the single road leading in and out of town, and Philip Worthy is among them. He will be unlucky enough to be on duty when a cold, hungry, tired—and apparently ill—soldier presents himself at the town's doorstep begging for sanctuary. The encounter that ensues, and the shots that are fired, will have deafening reverberations throughout Commonwealth, escalating until every human value—love, patriotism, community, family, friendship—not to mention the town's very survival, is imperiled. Inspired by a little-known historical footnote regarding towns that quarantined themselves during the 1918 epidemic, *The Last Town on Earth* is a remarkably moving and accomplished debut.
