David Harrison has contributed to the academic study of tourism over the last 30 years. This book brings together a collection of his published material that reflects the role played by tourism in 'development', both in societies emerging from Western colonialism and in societies previously part of the Soviet system. The overarching theme looks at how, promoted as a tool for development, tourism can lead to conflict between competing elites, but can also empower groups previously subject to constraint by traditional authorities. Tradition is intensely manipulatable and always reflects power relations. Such pressure on tradition is but one aspect of tourism's wider social impacts. This includes changes in economic and social structure, which, for many, constitute social problems that need to be addressed. At the same time, 'sustainability', though apparently a worthy aim, can be a problematic concept, especially when applied to 'traditional' ctures, and may conflict with such ideals as egalitarianism.

This work combines a study of contemporary issues in tourism development with a close examination of approaches to tourism research. Looking beyond the much-studied mass tourism industries, leading international academics who are members of the International Academy for the Study of Tourism, explore new issues raised by emerging tourist destinations such as Ghana, Samoa, Vietnam and India's Bhyundar Valley. A fascinating work, Contemporary Issues in Tourism Development discusses a wide range of topics such as: * reasons for development * tourism development as a strategy for urban revitalization * tourism 's links to heritage conservation and regional development * sustainability and the adverse impacts of development * cultural considerations and community participation * the importance of context for individual tourism projects.

Analyses of contemporary tourism planning and policymaking practice at local to global scales is lacking and there is an urgent need for research that informs theory and practice. Illustrated with a set of cohesive, theoretically-informed, international case studies constructed through storytelling, this volume expands readers' knowledge about how tourism planning and policymaking takes place. Challenging traditional notions of tourism planning and policy processes, this book also provides critical insights into how theoretical concepts and frameworks are applied in tourism planning and policy making practice at different spatial scales. The book engages readers in the intellectual, political, moral and ethical issues that often surround tourism policymaking and planning, highlighting the great value of reflective learning grounded in the social sciences and revealing the complexity of tourism planning and policy.

The book is a landmark volume which examines perplexing tourism debates such as the relevance of mass tourism, climate change, authenticity, tourism and poverty and slow tourism. Multidisciplinary in content, it covers applied aspects of sociology, anthropology, humanities and biosciences. The book is unique in its presentation and style and will be an essential resource for scholars, academics and practitioners.

Ecotourism has emerged over the last twenty years not just as a market niche, but also as a strategy for combining development with conservation in the developing world. Ecotourism, NGOs and Development considers the basis for advocacy and argues that it is premised upon a very limited and limiting view of the potential for development. Jim Butcher examines the advocacy of tourism as sustainable development in a range of NGOs and within the general literature. The research reveals that in spite of the plethora of critical commentaries on the operation of ecotourism projects, there is generally an uncritical take on the ideological basis of the projects. This book offers a timely critique of key assumptions underlying ecotourism's status as sustainable development, arguing that ecotourism as development strategy ties the fate of some of the poorest people on the planet to localized environmental imperatives.

A century after Samuel Clemens ' s death, Mark Twain thrives—his recently released autobiography topped bestseller lists. One way fans still celebrate the first true American writer and his work is by visiting any number of Mark Twain destinations. They believe they can learn something unique by visiting the places where he lived. Mark Twain ' s Homes and Literary Tourism untangles the complicated ways that Clemens ' s houses, now museums, have come to tell the stories that they do about Twain and, in the process, reminds us that the sites themselves are the products of multiple agendas and, in some cases, unpleasant histories. Hilary Iris Lowe leads us through four Twain homes, beginning at the beginning—Florida, Missouri, where Clemens was born. Today the site is simply a concrete pedestal missing its bust, a plaque, and an otherwise-empty field. Though the original cabin where he was born likely no longer exists, Lowe treats us to an overview of the history of the area and the state park challenged with somehow marking this site. Next, we travel with Lowe to Hannibal, Missouri, Clemens ' s childhood home, which he saw become a tourist destination in his own lifetime. Today mannequins remind visitors of the man that the boy who lived there became and the literature that grew out of his experiences in the house and little town on the Mississippi. Hartford, Connecticut, boasts one of Clemens ' s only surviving adulthood homes, the house where he spent his most productive years. Lowe describes the house ' s construction, its sale when the high cost of living led the family to seek residence abroad, and its transformation into the museum. Lastly, we travel to Elmira, New York, where Clemens spent many summers with his family at Quarry Farm. His study is the only room at this destination open to the public, and yet, tourists follow in the footsteps of literary pilgrim Rudyard Kipling to see this small space. Literary historic sites pin their authority on the promise of exclusive insight into authors and texts through firsthand experience. As tempting as it is to accept the authenticity of Clemens ' s homes, Mark Twain ' s Homes and Literary Tourism argues that house museums are not reliable critical texts but are instead carefully constructed spaces designed to satisfy visitors. This volume shows us how these houses ' portrayals of Clemens change frequently to accommodate and shape our own expectations of the author and his work.
